Quick Start Alerts

Avalanche SE Quick Start

Show Quick Start on Startup

Profile Configuration

- Create a Network Profile**  
A network profile enables you to specify...
- Add Device Software**  
Start the Add Device Software wizard to configure...
- Install Datalogic Configuration Utility**  
Install the Datalogic device configuration utility into...

Tools

- Install Avalanche Enabler**  
Visit the Wavelink website to download an [Avalanche Enabler](#) for the device that you want Avalanche to manage, then use this utility to guide you through the process of installing the Enabler on the device.
- Scan to Configure**  
Edit or print Scan to Configure barcodes.
- Check for Avalanche Updates**  
Check for updates to the software packages that you are managing in Avalanche.

Help and Support

- Avalanche Help**  
Search the dynamic help system by topic or keywords.
- Online Support**  
Connect to the online customer support web page.
- Support Generator**  
Create a profile of your installation for use by the customer support center.
